Make a Town Beautiful.

Gettysburg Borough officials met with State Highway Commissioner Sadler and went over the situation of street paving and whether bond issue was sufficient. The Department assured the Gettysburg people that the building of Baltimore and Carlisle streets would be rushed and suggested that the streets be narrowed five feet on either side and that these five feet be made grass plots on both sides of the thoroughfares.

It is to be hoped that the Town Council will immediately act and provide for the grass plot portion of the streets on the whole four main streets and so save the trees and make a town beautiful as well as up-to-date with the best of street paving.

THE SOARING H. C. I.

NOW IT IS FOR THE WATER TAKEN OUT OF MARSH CREEK.

33 Per Cent. Increase Hits Majority of Consumers, 200 Per Cent. Increase Hits Borough.

The way things are done usually brings its own reward and if the Gettysburg Water Company had liberally gone to work to antagonize the whole town they could not have accomplished their purpose better than the way they announced their wants of an increased rate. No excuse is given. No explanation made of why the flow of water is dearer in these days than other days. No showing of finances and what became of profits of water selling in other years. Unheralded announcement came on Monday of what was wanted in the following form:

Notice is hereby given that the Gettysburg Water Company has filed its tariff P. S. C. Pa. No. 2 with the Public Service Commission cancelling its tariff P. S. C. Pa. No. 1, changing some of the rules and regulations and making some increases in rates. The tariff will become effective April 1, 1920. Copies of the said tariff are in file in the office of the Company and may be examined there.

The omission is the meter rent of 50c per quarter.

The changes in Rules and Regulations are:

Minor explanatory clause added to Rule 4.

The misrepresentation as to use or waste of water entitles Company to discontinue service until misrepresentation is corrected or waste stopped, and proper adjustment of charges are made, added to Rule 10.

The Company may require from any meter consumer a deposit of not less than \$10.00 or more than twice the estimated periodical payment before water will be furnished. Six per cent. per annum will be paid on all such deposits. (New Rule 21).

An express provision that the meter and incidental facilities remain the property of the Company, added to Rule 22.

A charge of One Dollar is made in addition to all other charges and expenses when the Company turns off the water on after it has been turned off because customer has violated the rules and regulations of the law (New Rule 23).

The increases in Flat Rates are:

Domestic:

For first hydrant or opening for each house or for each family, from \$6.00 to \$8.00.

For first bath tub, for each family, from \$3.00 to \$5.00.

For first water closet, for each family, from \$6.00 to \$9.00.

For each wash stand in bath room, from Free to \$1.00.

Theatres, whether with or without one water closet, \$12.00.

Bakeries and Hot Houses, minimum charge from \$6.00 to \$9.00.

The increases in Meter Rates are:

Average daily consumption per quarter of 2000 to 10000 gals., from 15c to 17c per 1000 gals.

10000 gals. and over, from 12c to 14c per 1000 gals.

Minimum charge per month from \$1.00 to \$2.00.

Ready to serve charge, per quarter, 50c.

The increase in Fire Protection Service is:

Municipal fire hydrants from approximately \$8.00 to \$25.00 per annum per hydrant.

GETTYSBURG WATER CO.

W. H. O'Neal, President.

This is how an increase in telephone rates is asked:

March 1, 1920.

To Our Patrons:

Due to the continued increase in the cost of material and operating expenses, we find it necessary to make an increase in our telephone rental rates, effective April 1st, 1920. This increase will vary according to the class of service, but in no case will such increase exceed twenty-five per cent. (25 per cent.) of the present rates. A schedule of the new tariff has been filed with the Public Service Commission of the Commonwealth of Pennsylvania, and is also on file in the several offices and stations of the company.

It is with the greatest reluctance that we are making this increase, which was withheld until this time, with the hope that operating expenses could be reduced, but as this could not be done, we are obliged to take this step in order to protect the interest of our Company and continue to furnish efficient telephone service.

We trust that you will appreciate our position in this matter, and continue to give us your patronage, and we, in turn, will continue to serve you with our best efforts.

Very truly yours,

Cumberland Valley Telephone Company of Pa.

What about our Service?

SOME say "good," a few say "poor" and a large percentage say "well, we'd like to see it better, but probably you're doing the best you can under the circumstances."

What are the circumstances?
Just these!

To furnish good service we must have the right equipment and an effective operating force. Both cost money—much more than they used to! That money we get from telephone rates.

And what are these rates?

Just what they were before the war!

They are not sufficient to operate and maintain the plant effectively and provide for depreciation and replacements.

They afford no margin for future strengthening of the operating force. Our young women at the switchboards are intelligent and hardworking. We, at least, know that they're doing their very best.

To permit continued recognition of the good job they're doing, we must have adequate rates.

The service-user cannot ignore the obligations of the rate-payer!

Why Colds are Dangerous.

You are often told to "beware of a cold," but why? We'll tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever, and whooping cough. The quicker you get rid of your cold the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take. People's Drug Store.

Don't Treat Kidneys Rough, Warns Dr. Carey, Specialist

Constant Flushing May Injure the Delicate Organism and Seldom Removes the Poisonous Deposits.

Now that Dr. Carey, kidney and bladder specialist, has retired from active practice, he generously warns people that even the smallest symptoms of kidney trouble should have serious attention.

Backache, for instance, puffiness under or specks floating before the eyes, heavy feet and dry skin, are also danger signals.

"Thousands die yearly because they neglect their kidneys," says Dr. Carey, "and I feel upon retiring that I should tell all who even suspect kidney or bladder trouble about my prescription, Marshroot, which, during my active practice, has cured thousands of all kinds of kidney ailments."

This prescription has been given to pharmacists generally throughout America and is dispensed by them under the name Dr. Carey's Marshroot, a name that every sufferer from kidney trouble should remember. People's Drug Store can supply you.

Read this Mother's letter: "Father John's Medicine has done wonders for my two children. Our little son was very sick after having pneumonia. He was always complaining of a pain on his lungs. After taking three bottles of Father John's Medicine he had no more. My daughter also had a very bad cold, would have tonsillitis every few months. Father John's Medicine relieved her of that. I cannot speak too highly of the medicine." (Signed) Mrs. Miller, 732 Michigan Ave., Buffalo, N. Y.

You Saw These Knockabout Suits and Polo Coats in Vogue

Suit 4010 has consistently chosen Scotch Tweed mixtures to express the simple lines of this Knockabout suit which the tailored lady is wearing. A contrasting color to face collar and cuffs and a tiny piping of the same color through the belt add a touch of smartness.

Suit 4030 (on the lady at the left) is of Irish Homespun, and assumes a decidedly mannish air through the cut of its collar, cuffs and pockets. And by means of two buttons on each side of the skirt it combines straightness of line with walking comfort.

Wooltex
Tailor-mades
Designed and Tailored by
G. H. Black Co.

It's just a bit of white satin embroidered in gold and black. But, neatly fastened inside the collar of your tailormade, it means that you'll wear the coat or suit with all the pride we take in signing it! Remember, no matter how much it "looks like" a Wooltex Tailormade, it just can't be without that Wooltex signature shown above!

And we want you to know that we carry these coats and suits with the Wooltex label that stands for "That Well Dressed Look" for each and every type.

And you know that is really the secret of being well dressed at all times. It is having just the right costume—right for your type and right for certain kinds of occasions.

Now come the Spring days and the call of the great out-of-doors when, for the greater part of each day, you will be needing a walk-

"Meadowbrook." This is another smart Polo Coat. Large, square pockets, convertible collar with self stitching and a nice broad belt make it unusual. The shoulders are snug, the back straight with stitched seam down the centre. It is open in back from about six inches below the waist to the hem. In the same colors as the "Pinchurst."

ing suit or a big soft Polo coat with a semi-sports air.

And how about your particular type? The models that bear the Wooltex label consider all types and adapt the favorites of the season to the different types. Note for instance the Knockabout suits, illustrated above—one on the strictly mannish type, another a bit more feminine. And the Polo Coat at the left with its swagger sports air; while the other Polo Coat at the right is just as smart but a trifle more dignified.

"Pinchurst." It's of French Blue Angora Polo, this little sports coat. The Gray Angora Tweed facing conceals two little pockets, and those sharp little points over the hips are extremely smart. The cuff is "linked," the shoulders snug, and the back full. It comes in Squirrel, French Blue and Tan—the Tweed collar is of self or contrasting Angora.
